

DATA SHEET

VERLICHTING

The Goodman Small offers the same classic rectangular lantern silhouette as its larger counterpart, perfectly scaled down for more intimate spaces.

Beautifully crafted with a solid brass frame, its clear glass panels on the front and sides provide an unobstructed view of the interior, allowing the warm metallic tones of the brass back plate to shine through.

Designed with a streamlined side-access system, it ensures practical maintenance and effortless bulb changes.

The Goodman Small is ideal for adding refined, ambient lighting to narrow entryways, cozy hallways, flanking a bathroom mirror, or in compact outdoor spaces where a smaller footprint is needed.
